

CREATING ENGAGEMENT

REDEEM DEALS | FIND NEW SOLUTIONS | FOSTER NEW CONNECTIONS

IT'S ABOUT GROWTH AND CONNECTION

EXPO Virtual is an affordable virtual support option to face-to-face expos.

With COVID-19 causing uncertainty around the future of large-scale live events, EXPO Virtual delivers an engaging online portal and business support channel for businesses everywhere.

More people are spending time online during COVID-19 and this is unlikely to change anytime soon. EXPO Virtual is the perfect vehicle to create engagement with potential customers who are seeking solutions.

EXPO Virtual features a parade of online stalls where potential customers can browse, engage with stall holders and shop. Generate new leads and meet those difficult-to-reach contacts in difficult times.

YOUR ALL-INCLUSIVE CONNECTION STATION

Create your custom virtual stall with your own URL and videos at a fraction of the cost of building a website or undertaking expensive marketing campaigns. Be seen in an environment where people are shopping online for goods and services.

SHOWCASE YOUR PRODUCTS AND SERVICES AND CONSOLIDATE YOUR BRAND

How It Works

Once you've confirmed your stall purchase we'll set about creating your online stall. This may take up to two weeks depending on video requirements. Your media executive will advise each step along the way.
